KELLOGG COLLEGE GRADUATE SYMPOSIUM

New Perspectives on Long-Standing Problems

SATURDAY, 11 MAY 2019

Session I - 10:00 - 11:15, The Hub
Convenors: Visiting Fellows Professor Michael Harloe and Dr Michael Wiener

1. Tushara Ravindranath, The Shadow State: A barrier to the right to food (Ranchi, India)
2. Daniel Staudegger, How business and finance can change the world
3. Philip Webb, Human mobility, security and emergency management
4. Siyang Zhou, Access or access denied?: Issue of inclusivity of adult international students studying in the UK

Session II - 11:35 - 12:50, The Hub
Convenors: Visiting Fellow Dr Jeremy Howells and fellow Dr Elizabeth Gemmill

1. Yamama Bdaiwi, The Impact of War on Medical Education and Health Professionals Training in Syria: Review of qualitative, quantitative and mixed methods literature
2. Carla Fuentes Lopez, Biocompatible electrospun fibre scaffold enhancing cell attachment, visibility and directional growth
3. Mackenzie Martin, Parenting for Lifelong Health: The existing evidence and next steps
4. Gergana Velikova, Development of a computational tool for the analysis of bisulfite-free DNA sequencing data

Session III - 14:15 - 13:30, The Hub
Convenors: Visiting Fellows Dr Anna Beer and Dr Tony Buxton

1. Elliot Elstob, Pottery and Pitfalls: The study of Greek vases in relation to Archaic Greek warfare
2. Rivers Gambrell, Football is perhaps my second vocation: Richard Nixon’s politicised sports fandom
3. Owen Harvey, Buttons, buckles and Blanks: An archaeological analysis of the assemblages at Fort Erie
4. Neil Suchak, Transnational Intellectual History: Denationalising the history of ideas

Session IV - 15:50-17:05, The Hub
Dr David King, Visiting Fellow and Dr Elizabeth Gemmill, Fellow

1. Tessa Blair, Experience Teaches? How can ‘double stimulation’ help solve the ‘wicked problem’ of (researching) learning to teach from experience
2. Silas Elliott, If ‘Echo-Chambers’ are the Hogwarts Houses, then ‘Filter-Bubbles’ are the Sorting Hat.
3. Ekin Genc, Is Digital Paternalism Ethically Justified?
4. Mar Crego Walters, Blood Ivory: allocating mtDNA from illegal ivory to geographic poaching centres

Refreshments and lunch will be served during the day, and the symposium will conclude with a plenary discussion, followed by drinks and canapés in the College Bar.
