

# The Pandemic EVIDENCE Collaboration 2025 International Conference

---

Looking at the Pandemic in the Rearview Mirror:  
Successes, Failures and Unintended Consequences

**14 – 16 MAY 2025**

*Banff Centre for Arts and Creativity, Banff, Canada*

The Pandemic Evidence Collaboration 2025 conference aims to identify, develop and implement strategies to generate high-quality evidence for non-pharmacological interventions (NPIs) during public health emergencies to inform policy and care decisions.

#### SESSION ONE **PANEL DISCUSSION**

Characteristics of COVID19:  
Assessing the difficulties of finding  
high quality research evidence.

#### SESSION TWO **GUEST KEYNOTE SPEAKER GORDON GUYATT**

Evidence-Based Medicine a  
Historical Outline of its Application  
in Clinical Medicine and its Potential  
in the Management of a Pandemic.

#### SESSION THREE **PILLAR ONE: DIAGNOSTICS AND TRANSMISSION**

The Benefits and Harms of NPIs:  
Methodological Standards and  
Study Design.

#### SESSION FOUR **PILLAR TWO: INTERVENTIONS AND EVIDENCE**

Challenges in Designing Studies  
for Evidence-Based NPIs in a  
Pandemic.

#### SESSION FIVE **PILLAR THREE: PRACTICE AND POLICY**

Why we Need Evidence-Based  
Medicine to Facilitate Informed  
Policy in a Pandemic.

#### **CLOSING SESSION**

Hopes and Ideas for  
the Future: Providing  
Better Evidence in  
a Pandemic.
